

Idemitsu MTF

Description

Idemitsu MTF is a technologically advanced manual transmission fluid suitable for use in all modern MT units. This special formulation enhances smooth & positive shifting under severe working conditions.

Application

Recommended for all modern gasoline & diesel engines, especially Japanese cars.

Characteristics

1. It is a long life manual transmission fluid.
2. Offers excellent protection against premature wear & tear of moving parts.
3. Suitable for gasoline & diesel engines.

Packing

24 x 1 Litre Carton, 200 Litres Drum
